Forest Supervisor Issues Statement That 114 Forest Employees Were Killed in Idaho

Spokane, Wash., Aug. 24.—It is believed that more than two hundred persons, nearly all fire fighters, perished in the Idaho forest fires. Superintendent Weigle of the Coner d'Alene national forest, after receiving many reports of disaster to various parties of six hundred employees, posted a bulletin today in his office at Wallace announcing the death of 114 of the men and also stated his grave concern for the safety of Ranger Joseph B. Halm and seventy-four men who were surrounded by fire Saturday night in the forest on the Big Fork of the Coner d'Alene river, near where another party lost thirteen men. Halm was for four years the best athlete of the Washington State College at Pullman, a renowned football and baseball player.

## FIRES ARE RAGING IN CALIFORNIA

Tahoe National Forest Reserve is Threatened With Complete Devastation

Auburn, Cal., Aug. 24.—The fire in the Tahoe national forest reserve is raging today despite the efforts of hundreds of men, including two companies of the coast artillery, to stay its progress by back-firing. One side of the fire front has been practically conquered, but the other, which threatens the main part of the forest, appears to be beyond control, and it now looks as if the entire reserve is doomed. Altogether an area of three townships has been burned over and much valuable timber has been destroyed.
